

## TIE BREAKER CRITERIA

### Example:

Team U10G-23 and Team U10G-24 are tied for 2nd place

1. **Head to Head** - The team that won the game(s) the two teams played takes second place, and the other takes third. If the teams tied or won an even number of games against each other, move to #2.

2. **Goals Scored (not to exceed 5)** - Add up the total goals scored by both teams. If a team scored more than 5 goals in any game, only count the first 5. The team that scored the most goals takes 2nd place and the other takes 3rd. If they are equal, move to #3.

3. **Goals Against (not to exceed 3)** - Add up the total goals scored against both teams. If a team had more than 3 goals scored against them in any game, only count the first 3. The team that had the LEAST goals scored against them takes 2nd place and the other takes 3rd.

If it goes beyond this, we may have to flip a coin or have one of our more talented volunteers do a back-flip to see if they land on Heads or Tails.
